

## Statistics-A Complete Process

\* Kalpesh Parmar, \*\*Richa Jain

### *Abstract*

*Introducing the concept of statistics, it is considered as to be evolved in 1770's. After then it has got implication to every sphere of our life. The term statistics is derived from the Latin word 'status' which meant 'a political state'. It meant to be the data related to the government.*

*Later on it has emerged as the demand of every area of our life. It got implications in the field of mathematics as well as commerce, management and economics as well. So, for this we need to gather the summarised information about the entire process of statistics. Hence, in this paper, the author has made efforts to put light on the Process of statistics through the Steps in Statistics in general sense.*

**Keywords:** Statistics, Status, Political State, Implications.
