

## **A Study of Indian Recruiting Trends 2016**

\* Tahemina Pathan

### *Abstract*

*As the Indian economy keeps up its escalating growth trajectory, the job market also looks very positive. Indian market continues to grow, with strong confidence bolstered by high levels of investment. As a result of this increased competition for talent, executives will begin to put pressure on recruiting to produce new recruiting approaches that provide them with a competitive talent advantage. The paper is based on secondary data. This paper will explore the biggest challenges faced by recruiters and the current trends in recruiting. It concludes with highlighting the Indian recruiting trends that are to stay.*

**Keywords:** Recruiting, Challenges, Current hiring practices, Future trends.
